Your Comments: I would encourage the EPA to move forward with the plan to clean-up the entire Lower Willamette River system. Strategically working from the upper (most up-river portion) and work your way down-river to eliminate the potential for re-contamination. I would also encourage EPA to use water quality monitoring data buoys as a form of providing live information regarding water quality for EPA and Oregon DEQ for contractor compliance with permitting agencies. Let get the river clean-up started in 2017!
